About

I am a passionate self-taught web developer, using web technologies to build amazing products and focusing on solving problems using the power of technology. I care about writing clean code and I genuinely love to learn new technologies to improve my skills to meet the market demand towards becoming a full-stack developer. I have linked my github profile and deployed portfolio containing some of my recent projects above.

I am open and would love to hear from you, whether it's a job opportunity or projects requiring my skills or just even a chat. Feel free to contact me!
